RUSSIAN AMPHIBIOUS TROOPS VANISH

ENGLISH REMAIN IN NORWEGIAN SEA!

NOTE: In the "Fall 1904" moves, I inadvertantly listed the Russian unit in Norway as a Fleet, when it was in fact an Army. I didn't notice this in the "Spring 1905" moves, neither did McLeod, although another player did point it out to me. I cannot, obviously, ask players to resubmit "Spring 1905" moves, since they already know what everyone else is doing.... so I am merely rerunning the Spring moves with the Russian pieces correctly designated. BERLIN Why does the Russian government continue to insist upon war with Germany - after the cooperation Germany lent her?

Russian Army Warsaw is rumored to be moving toward Prussia, huh? Continue to make inroads on German territory and it will mean the spoils of Austria-Hungary will go to Turkey.

WARSAW FORCAS, Knight of Hell, has been controlled and told to abstain from violating German territory.
